

# Time To Have Zero Waste

Whoo oh woo oh  
Time for zero waste  
Whoo oh woo oh  
Time for zero waste

Wha wha wha whats the danger  
Da da damage nature  
La la lasts forever  
All together now

Incinerator, we don't need one you see  
Better listen, got a mission to breathe  
So turn it off, off off off, so turn it off

Don't want no waste here I want no disease,  
none for the air, or the fish in the sea  
So turn it off, off off off, so turn it off

Stop burning out  
and face the light  
You see it now  
The time is right

We want to dance and we want fresh air  
A better life we want to share  
We want to dance and we want fresh air  
A better life we want to share

Whoo oh woo oh  
Time for zero waste  
Wha wha wha whats the danger  
Da da damage nature  
La la lasts forever  
All together now

we want clean air, we want it now  
stop burning out, and face the light,  
you realise, you see it now,  
The time is right, you can feel it now,  
You can feel it now  
Turn it all around, turn it all around.

We want to dance and we want fresh air  
A better life we want to share  
We want to dance and we want fresh air  
A better life we want to share  
Whoo oh woo oh  
Time for zero waste  
Whoo oh woo oh  
Time for zero waste
